10. Why are you running for this office?

I am passionate about public education and our children. I want to make sure each child receives a high-quality education which results in them being prepared, productive, informed and engaged citizens. I am a strong advocate for providing a safe learning and working environment. I propose a proactive approach to school safety by implanting a social emotional learning (SEL) curriculum. SEL curriculum is a process that helps children apply the knowledge, attitudes and skills necessary to understand and manage emotions, set and achieve positive goals, develop empathy for others, develop friendships and make responsible decisions. Along with a SEL curriculum, each school would have a social worker or mental health clinician available who could teach the SEL curriculum

It is important to me that our teachers and staff are adequately supported. We need to make sure we provide incentives for our teachers to stay and not look elsewhere for employment. In essence, I want to remove barriers that prevent a child from receiving a quality education.

I believe that a quality education supports our business community by providing educated creative employees. I will advocate in Tallahassee for our legislators to make education a number one priority.

Pre-Interview Questions

(For School Board and Port Commission races)

1. Please describe your experience in financial management, budgeting or oversight that would qualify you to oversee the large budget of the school district/port?

As a director in a managed mental health care company, I worked with client accounts, staff hires and knew who I could rely on to help me with any budget concerns. In my private psychotherapy business, I managed my own finances.

2. Both the School Board and the Port Commission set the tone for their respective organizations. Please describe the role you hope to play in leading these organizations, from a public perception as well as internally.

As a social worker my one of my strengths is my ability to meet people where they are and to listen to their concerns. I want to have a collaborative relationship with my fellow board members and the Brevard Federation of Teachers. I will work hard to develop community trust and to be available to hear their concerns.
